Apprenticeship Program Annual Update 2025-26
Floorcovering Installer

Floorcovering Installer Apprenticeship Education Program (AEP) Overview

- Consists of two periods of training.
- All periods consist of 1500 on-the-job instruction hours.
- All periods of classroom instruction training are offered at one union training provider in the province.
- The AEP was last updated in 2022. It is scheduled for a revision process beginning in 2029 for implementation in 2031.
- Post-secondary institutions, unions or associations may offer other programs related to the Floorcovering Installer AEP. Contact your local post-secondary institution, union or association for offerings and availability

Helpful Tradesecrets Links for Apprentices

- **Floorcovering Installer trade profile:** a detailed overview of the trade, giving a clear picture of what the trade involves, how training works, and what certification requires.

Directing the Future of Alberta Skilled Trades and Apprenticeship

Apprenticeship education and the direction of the skilled trades in Alberta is a partnership between apprentices, employers, industry, training providers and government. The Alberta Board of Skilled Trades and the My Skilled Trades Network are two groups with responsibilities for directing the future.

Alberta Board of Skilled Trades (ABST)

ABST is responsible for advising the Minister of Advanced Education on the direction of Alberta's designated trades certification system. To learn more about ABST and its members, visit ABST.

My Skilled Trades Network (MySTN)

MySTN is the AIT consultation network where experienced tradespeople can volunteer to provide feedback that helps shape apprenticeship education, exams, and training resources. It is hosted on the Tradesecrets website and is open to anyone with experience in an Alberta designated trade. To apply to join the network and learn more, visit MySTN.

We value your feedback!
