

COMPULSORY CERTIFICATION TRADES – to work in a compulsory certification trade, a person must either hold a recognized trade certificate or be a registered apprentice in the trade. An employer wishing to hire persons to work in the trade must hire only certified journeypersons in that trade or apprentices registered in the trade and working under the supervision of a certified journeyperson. Compulsory certification trades usually involve work where public and worker safety needs to be closely monitored.

OPTIONAL CERTIFICATION TRADES – an individual is permitted to work in an optional certification trade if the employer deems the individual to have the skills and knowledge expected of a certified journeyperson in the trade. Employers may employ uncertified journeypersons and use uncertified journeypersons to supervise and train apprentices on the job. An employee working in an optional certification trade and learning the trade **MUST** become a registered apprentice if that employee is to work in the trade.
