

Apprenticeship Program Annual Update 2025-26

Motorcycle Mechanic

Motorcycle Mechanic Apprenticeship Education Program (AEP) Overview

	Consists of 4 periods of training.		Periods 1-2 consist of 1360 on-the-job instruction hours. Periods 3-4 consist of 1420 on-the-job instruction hours.
	All periods of classroom instruction training are offered at Northern Lakes College Fairview Campus and SAIT.		The AEP was last updated in 2012. It is undergoing a revision process, which began in 2025, for implementation in 2027.

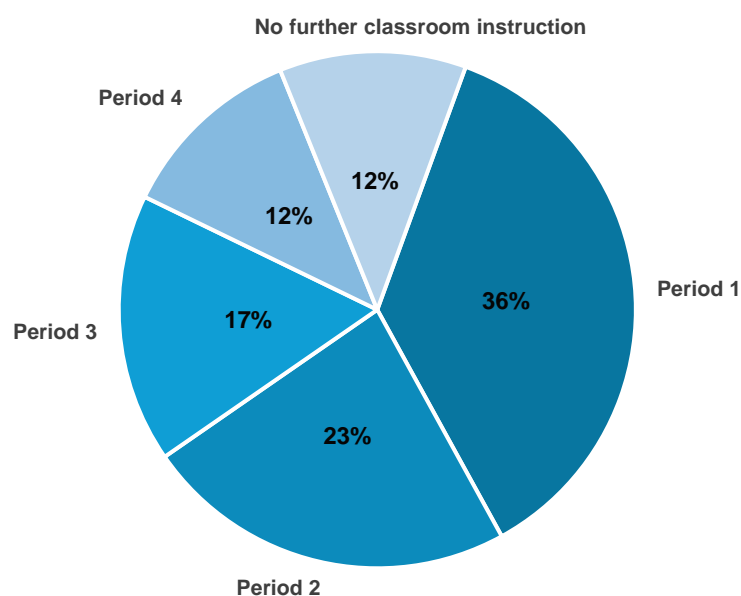

Helpful Tradesecrets Links for Apprentices

- **Motorcycle Mechanic trade profile:** a detailed overview of the trade, giving a clear picture of what the trade involves, how training works, and what certification requires.

Motorcycle Mechanic

Directing the Future of Alberta Skilled Trades and Apprenticeship

Apprenticeship education and the direction of the skilled trades in Alberta is a partnership between apprentices, employers, industry, training providers and government. The Alberta Board of Skilled Trades and the My Skilled Trades Network are two groups with responsibilities for directing the future.

Alberta Board of Skilled Trades (ABST)

ABST is responsible for advising the Minister of Advanced Education on the direction of Alberta's designated trades certification system. To learn more about ABST and its members, visit [ABST](#).

My Skilled Trades Network (MySTN)

MySTN is the AIT consultation network where experienced tradespeople can volunteer to provide feedback that helps shape apprenticeship education, exams, and training resources. It is hosted on the Tradesecrets website and is open to anyone with experience in an Alberta designated trade. To apply to join the network at learn more, visit [MySTN](#).

We value your feedback!

If you have specific feedback about this trade you want to share with us, please email
