Alberta Apprenticeship and Industry Training Board

Statistical Profiles 2013

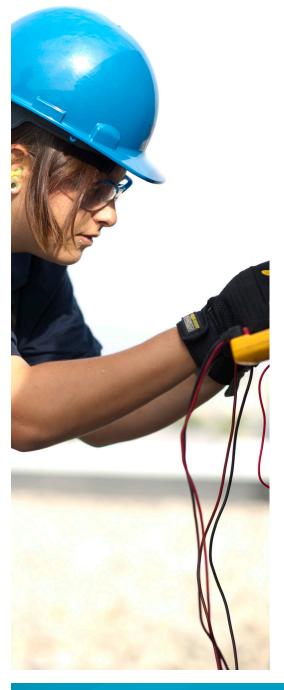

Apprenticeship at a Glance

- There were more than 65,000 registered apprentices in Alberta as of December 31, 2013.
- In 2013, more than 22,000 new apprentices registered an increase of almost 50% since 2010.
- As of December 31, 2013, approximately 3,200 Aboriginal people were registered in Alberta as apprentices.
- As of December 31, 2013, more than 5,800 women were registered in Alberta as apprentices.
- More than 1,500 high school students were registered in the Registered Apprenticeship Program (RAP) in 2013, and were employed at over 1,000 employer sites.
- More than 2,700 apprentices who started RAP in high school are currently continuing in a regular apprenticeship program.
- More than 3,700 individuals who began their apprenticeship through RAP have gone on to complete their program and become certified journeypersons. (See Table 11 and Chart 5.)
- In 2013, apprentices were being trained at more than 14,000 employer sites around Alberta.
- In 2013, more than 8,500 individuals were certified in Alberta's designated trades and occupations.
 (This includes completed apprentices and individuals issued occupation and qualification certificates).
- The majority of graduates who participated in the 2011/2012 apprenticeship graduate survey expressed satisfaction with:
 - the overall quality of on-the-job training (95%);
 - the overall quality of their technical training (96%); and
 - their experience with the apprenticeship program 96% would still have chosen to become an apprentice.
- According to a 2012 survey of employers, overall satisfaction with Alberta's apprenticeship and trade certification system remains high with 92 per cent of respondents expressing satisfaction with the system.
- The majority of employers who participated in the 2012 employer survey expressed satisfaction with:
 - the skills of certified journeypersons (95%);
 - apprenticeship technical training (86%); and
 - the effectiveness of on-the-job training (96%).
- Innovation and Advanced Education staff completed more than 10,400 shop registrations through site visits in 2013. These site visits provide an opportunity to promote apprenticeship and industry training programs, and work with employers and apprentices to ensure the successful completion of apprenticeship training.

Apprenticeship Statistics at a Glance - 2013

- Alberta has more than 50 designated trades and occupations.
- Apprenticeship programs in most of the designated trades are three to four years in length.
- Approximately 80 per cent of an apprentice's time is spent on the job under the guidance of a certified journeyperson or qualified tradesperson. The other 20 per cent involves formal instruction provided at, or through, a public post-secondary institution.
- Apprenticeship begins with finding an employer. Employers hire apprentices, pay their wages and provide on-the-job training supervised by a certified or qualified tradesperson.
- Most apprentices are eligible for employment insurance while attending formal instruction. Apprentices who demonstrate financial need may qualify for a grant while attending formal instruction.
- The most common age for Alberta apprentices to register in their first trade is 20.
- While in high school, students can become apprentices through the Registered Apprenticeship Program (RAP). In RAP, they obtain on-the-job training and work experience as credit toward both an apprenticeship program and a high school diploma while earning an income.
- As of March 31, 2013, approximately \$5.9 million has been awarded to Alberta apprentices through the Alberta Apprenticeship and Industry Training Board Family of Scholarships.
- Alberta's apprenticeship and industry training system relies on a network of approximately 170 committees made up of more than 800 individual industry representatives. Trade and occupational committees are composed of equal numbers of employers and employees.
- Formal instruction is most often delivered through what is called 'block release', where the apprentice spends a block of time, generally eight weeks per year in classroom instruction. Formal instruction may also be offered in other formats in some trades such as competency-based apprenticeship training (CBAT), distance delivery, weekly apprenticeship training system (WATS), mobile delivery, and blended learning.
- Although Alberta has only 12 per cent of Canada's labour force, it trains approximately 20 per cent of the country's apprentices.
- Alberta recognizes apprentices from other jurisdictions in Canada at the same level as their home jurisdiction, and facilitates that transition to ensure that the best interests of those apprentices are met.
- Alberta welcomes tradespeople from other jurisdictions and recognizes all Canadian trade certificates. Alberta also promotes the acquisition of the Interprovincial Standards Red Seal.
- Alberta has produced more tradespeople with an Interprovincial Standards Red Seal than any other jurisdiction in Canada.

Total Apprentices Registered: Total number registered as of December 31, 2013. Apprentices may be registered in more than one trade or branch of a trade within the same year but are counted here only once.

New Apprentices Registered: All apprentices registering during a single calendar year. The number includes those who are returning to do an additional apprenticeship after completing one or more apprenticeships in previous years, or continuing an apprenticeship in another trade for which they registered in a previous year. Apprentices who registered in more than one trade or branch of a trade within a specific year, or who changed from one branch of a trade to another branch within the same trade on the same day, are counted only once. The number does not include reinstated apprentices (unless reinstated in the same year).

^{*} Total number of apprentices registered as of December 31 each year. Apprentices may be registered in more than one trade or branch of a trade within the same year but are counted here only once.

Natural gas compression technician became a designated trade on September 1, 2011.

Approximately 750 of the rig technician apprentices are from Canadian jurisdictions other than Alberta.

Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.

Effective April 1, 2011, the designation of the trade of tool and die maker was rescinded.

The total number of registered apprentices includes 604 apprentices taking training in Alberta who are from other Canadian provinces and territories where the trade is designated but the jurisdictions are unable to provide technical training due to small apprentice registration numbers. Alberta does not individuals a certificate. They are training due to small apprentice registration numbers. Alberta does not issue these individuals a certificate. They are not counted in Table 5 under Completed Apprentices.

⁽Note 5)

^{* =} Red Seal trade in which not all branches of the trade are Red Seal

Apprentices registered in a single branch of the auto body technician trade are counted under the branch in which they are registered. Apprentices registered in two or three branches of the trade are counted under the 'Technician' heading. Note 1:

The parts technician trade merged with the warehousing occupation on May 1, 2008. The parts technician trade now has two branches -Note 2: parts technician and materials technician. Apprentices who completed or were granted credit for first period technical training by June 30, 2008 could continue in the old parts technician program.

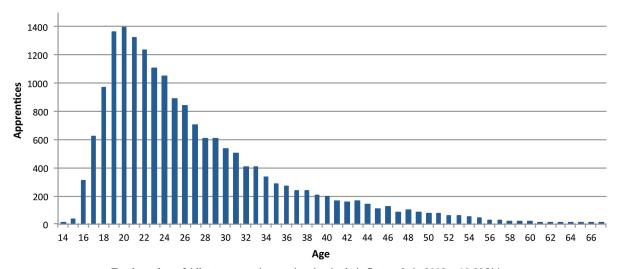

Total Number of Apprentices Registered by Year, 1993 - 2013

Chart 2

Age of Alberta Apprentices on Date of Registration in First Trade, 2013*

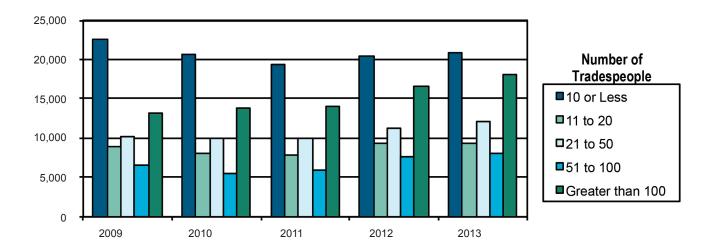

Total number of Alberta apprentices registering in their first trade in 2013 = 18,285**

^{*} This graph represents statistics covering a series of calendar years (January to December).

^{*} Age at date of registration.

The 18,285 total in the chart above includes only individuals registering in their first trade in Alberta in 2013. This number differs from the total number of new apprentices registered (22,129) as presented in Table 3. In Table 3, the number of new apprentices registered includes those who are returning to do an additional apprenticeship after completing one or more apprenticeship programs in previous years.

Total Apprentices Being Trained by Employer Site Size, 2009 - 2013*

^{*}The size of a employer site is determined by the number of tradespeople.

N/A = Not Applicable.

- Note 1: This number includes the number of 'Interprovincial Red Seals Issued to Completed Apprentices and Trainees' in 2013 regardless of the year the apprentices or trainees completed their training.
- Note 2: A Qualification Certificate is a certificate issued to individuals who, through an assessment of their prior work experience, knowledge and skills in a designated trade, demonstrate they meet the standards set for certification in Alberta.
- Note 3: Equivalency documents were issued to individuals who hold a valid trade or occupational certificate to indicate that the person holds a specific certificate and is permitted to work in a particular trade, or branch of a trade, or that the person holds a specific certificate that is recognized as equivalent to an occupational certificate in a named occupation. Equivalency documents are not issued to individuals who hold a certificate that bears an Interprovincial Standards Red Seal. Twenty-nine of the 34 individuals who received Equivalency documents for the automotive service technician trade also received Equivalency documents for the heavy equipment technician trade also received Equivalency documents for the automotive service technician trade.
- Note 4: 'Other Red Seals Issued' includes red seals issued to individuals other than those who have completed an Alberta apprenticeship or occupational training program. The number includes red seals issued to individuals who were certified through Alberta's Qualification Certificate Program or occupation training and certification program (without completing a trainee program) and to individuals who successfully completed the interprovincial examination in Alberta rather than in the jurisdiction in which they were originally certified.
- Note 5: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.
- Note 6: Cathodic protection technician became a designated occupation on February 4, 2013.
- Note 7: Slickline services became a designated occupation on September 30, 2013.

^{*} Individuals issued more than one certificate in 2013 are counted here only once.

^{**} Indicates that some, not all, branches of this trade have a red seal designation.

N/A = Not Applicable. Data does not exist in one or more of the specified years .

- Note 1: Natural gas compression technician became a designated trade on September 1, 2011.
- Note 2: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.
- Note 3: Effective April 1, 2011, the designation of the trade of tool and die maker was rescinded.
- Note 4: Cathodic protection technician became a designated occupation on February 4, 2013.
- Note 5: Residential construction site manager became a designated occupation on September 30, 2011.
- Note 6: Slickline services became a designated occupation on September 30, 2013.
- Note 7: The warehousing occupation merged with the parts technician trade on May 1, 2008. Individuals registered in the warehousing occupation on that date had the option to complete their existing warehousing training and become certified prior to May 1, 2010.

^{*} Individuals issued more than one certificate in each year are counted here only once.

Apprentice Completion Rate, 1996/97 to 2012/13

Source: Alberta Innovation and Advanced Education

Notes

Year = July 1 to June 31

The cohort of apprentices that is followed are those who have completed all the requirements for their first period of apprenticeship training (including technical training, on-the-job training and period exams) and went on to complete their program within two years past the normally expected completion date.

The completion rate is based on trade programs that are 2, 3 and 4 years in length combined. One year trades are excluded.

- Note 1: Delmar College, Eveline Charles Academy and Marvel College provide technical training for hairstylists. The hairstylist trade has a two-year apprenticeship program.
- Note 2: Prior to August 1, 2009, Marvel College provided hairstylist training in the northern part of the province. Between August 1, 2009 and July 31, 2012, Eveline Charles Academy provided that training. As of August 1, 2012, Marvel College is again providing the hairstylist training for northern Alberta
- Note 3: Effective August 1, 2009, Grande Prairie Regional College assumed responsibility from NAIT for NAIT's Fairview campus and Grande Prairie campus.
- Note 4: 'Other' training providers may not provide apprenticeship technical training every year. Other training providers for 2013/14 include:

 ATCO Electric is accredited to provide technical training for its powerline technician apprentices.

 Enform (previously Petroleum Industry Training Service) trains only crane and hoisting equipment operator wellhead boom truck, which is a one-year apprenticeship program.

 FortisAlberta Inc. (previously Aquila Networks Canada, Utilicorp Networks Canada and Trans Alta Utilities) is accredited to provide technical training for its powerline technician apprentices.

^{*} These statistics cover the school year from August 1 to July 31 for each year represented, with the exception of the 2013/14 school year. The data for this year is the attendance as of the date of printing (February 11, 2014).

N/A = Not all trades have four periods. The N/As indicate where there is no period in that trade.

Note 1: 'No TT Required' refers to those apprentices who have completed, or who have been granted credit for, all technical training (TT) requirements in their apprenticeship program. Industry examination and/or work experience/on-the-job training requirements for the trade have yet to be successfully completed.

 $^{^{\}ast}$ These statistics are as of December 31, 2013.

TOTAL	65,880	22,129	7,354	29,086

(Note 3)

- * This table represents statistics covering the January to December 2013 calendar year. Technical training in Table 7 is reported as school year. For this table only, the technical training statistics cover the calendar year for comparability within this table.
- ** Attendance reflects the number of technical training seats occupied.
- Note 1: Alberta provides training for apprentices from other Canadian provinces and territories where the trade is designated but the jurisdictions are unable to provide technical training due to small apprentice registration numbers. Alberta does not issue these individuals a certificate. They are not counted in Table 5 under Completed Apprentices.
- Note 2: Alberta registers apprentices and provides technical training to people from jurisdictions where no apprenticeship program exists.

 Alberta issues a certificate on completion of the program.
- Note 3: Not all apprentices attend technical training in any given year. The reasons for not attending may include:
 - Apprentices do not normally attend technical training until they have had at least eight to 10 months of on-the-job training with their employer.
 - Some apprentices are graduates of accredited post-secondary technical programs or have completed an apprenticeship program in another trade and have received credit for their technical training.
 Some have successfully completed all of the technical training and have only the required on-the-job training to complete before being eligible
 - Some have successfully completed all of the technical training and have only the required on-the-job training to complete before being eligible
 to be certified.
 - · Some prefer to obtain the study material (ILMs individual learning modules) and learn at their own pace, and then challenge the industry exam.
 - · Some are in the Registered Apprenticeship Program (RAP) and attending high school and are not able to attend technical training.

N/A: Not applicable refers to trades where local apprenticeship committees do not exist. Designated occupations do not have local committees.

- Note 1: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.
- Note 2: Cathodic protection technician technician became a designated occupation on February 4, 2013.
- Note 3: The Petroleum Competency Program Steering Committee serves as the industry committee for the oil and gas transportation services, slickline services, snubbing services and well testing services supervisor designated occupations.
- Note 4: Slickline services became a designated occupation on September 30, 2013.
- Note 5: A number of subcommittee meetings of the provincial apprenticeship committees (PACs) were held jointly with other PACs. These joint meetings are counted in the meetings for each provincial apprenticeship committee but are only counted once in the totals. The joint meetings were held in the following trades: appliance service technician with refrigeration and air conditioning mechanic (1); heavy equipment technician with transport refrigeration technician (1); refrigeration and air conditioning mechanic with transport refrigeration technician (1).

^{*} The meetings counted in this table are in-person meetings only. Many committees also conduct meetings on a single item or through ballots, faxes or phone converations. These are not included in this table.

High School =

RAP participants currently in high school. RAP participants who have completed high school and are now full time apprentices. Full Time =

RAP participants who have completed their apprenticeship program and are now certified tradespeople. Certified =

Total number of RAP participants certified since inception of program. Note 1:

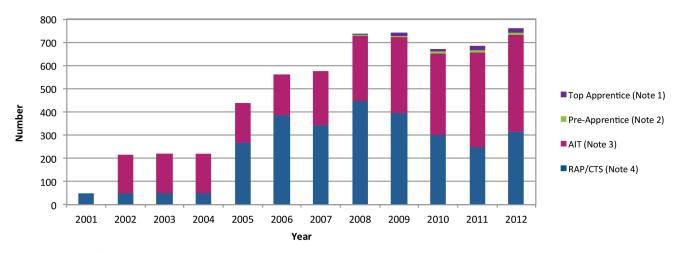

Number of New Registrants in the Registered Apprenticeship Program (RAP) by Year, 1992 - 2013

Source: Alberta Innovation and Advanced Education

Chart 6

Total Number of Scholarships Awarded by Year, 2001 - 2012

\$5.9 million dollars have been awarded to apprentices since the scholarship program began in 2001.

Source: Alberta Innovation and Advanced Education

Note 1: There are 21 Top Apprentice Scholarships of \$1,500 available each year. The first year the scholarships were awarded was 2008.

Note 2: There are 11 Pre-Apprentice Scholarships of \$1,000 available each year. The first year the scholarships were awarded was 2008.

Note 3: There are a minimum of 357 Apprenticeship and Industry Training (AIT) Scholarships of \$1,000 available each year.

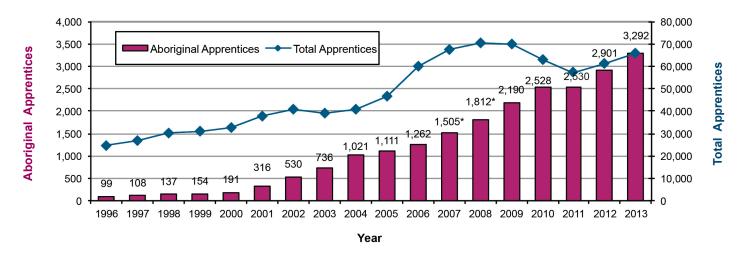

The number varies each year based on the value of the endowment fund. The first year the scholarships were awarded was 2002.

Note 4: The Registered Apprentice Program/Career and Technology Studies Apprenticeship Pathways (RAP/CTS) Scholarships are \$1,000.

For the years 2001 to 2004, there were 50 RAP/CTS scholarships available. Since 2005, 500 RAP/CTS Scholarships are available each year.

^{*} This graph represents statistics covering a series of calendar years (January to December).

(Note 3)

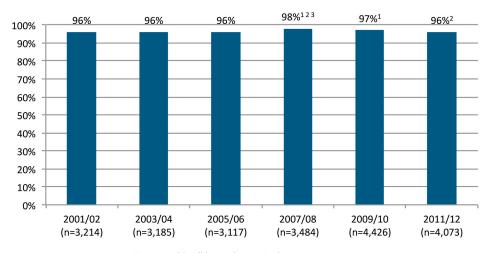

^{*} Total number of apprentices registered as of December 31. Apprentices may be registered in more than one trade or branch of a trade within the same year, but are counted here only once.

Note 1: Approximately 750 of the rig technician apprentices are from Canadian jurisdictions other than Alberta.

Note 2: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.

Note 3: Apprentices choose whether or not to disclose their Aboriginal heritage when registering. The total number of Aboriginal apprentices reflected here indicates those who disclosed their Aboriginal heritage. There may be additional apprentices with Aboriginal heritage registered who did not disclose that information.

Survey of Graduates of the Apprenticeship and Industry Training System

Yes - would still have chosen to become an apprentice

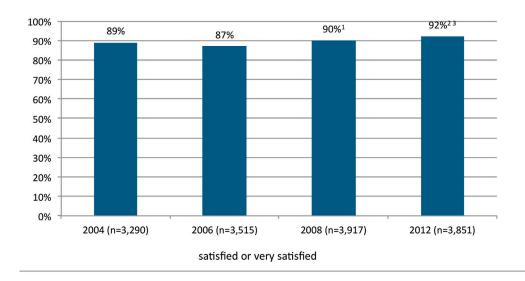

Source: Alberta Innovation and Advanced Education

Survey Question #F6: In retrospect, based on your experience with the Alberta apprenticeship program, would you still have chosen to become an apprentice?

- Indicates a significant change in response at a .05 level of confidence compared to the previous survey year.
- Indicates a significant change in response at a .05 level of confidence compared to two surveys previous.
- Indicates a significant change in response at a .05 level of confidence compared to three surveys previous.

Chart 10

Survey of Employer Satisfaction with Apprenticeship Training and Skilled Tradespersons

Source: Alberta Innovation and Advanced Education

Survey Question #45: Overall, how satisfied are you with the apprenticeship and trade certification system in Alberta?

- Indicates a significant change in response at a .05 level of confidence compared to the previous survey year. Indicates a significant change in response at a .05 level of confidence compared to two surveys previous. Indicates a significant change in response at a .05 level of confidence compared to three surveys previous.
