

Alberta Apprenticeship and Industry Training Board

Statistical Profiles
2014

Statistical Profiles

Apprenticeship at a Glance

- Alberta has more than 50 designated trades and occupations.
- Apprenticeship programs in most of the designated trades are three to four years in length.
- Approximately 80 per cent of an apprentice's time is spent on the job under the guidance of a certified journey person or qualified tradesperson. The other 20 per cent involves formal instruction provided at, or through, a public post-secondary institution.
- Apprenticeship begins with finding an employer. Employers hire apprentices, pay their wages and provide on-the-job training supervised by a certified or qualified tradesperson.
- Most apprentices are eligible for employment insurance while attending formal instruction. Apprentices who demonstrate financial need may qualify for a grant or loan while attending formal instruction.
- The most common age for Alberta apprentices to register in their first trade is 19.
- While in high school, students can become apprentices through the Registered Apprenticeship Program (RAP). In RAP, they obtain on-the-job training and work experience as credit toward both an apprenticeship program and a high school diploma while earning an income.
- As of March 31, 2014, approximately \$6.7 million has been awarded to Alberta apprentices through the Alberta Apprenticeship and Industry Training Board Family of Scholarships.
- Alberta's apprenticeship and industry training system relies on a network of approximately 170 committees made up of more than 700 individual industry representatives. Trade and occupational committees are composed of equal numbers of employers and employees.
- Formal instruction is most often delivered through 'block release', where the apprentice spends a block of time, generally eight weeks per year in classroom instruction. Formal instruction may also be offered in other formats in some trades such as competency-based apprenticeship training (CBAT), distance delivery, weekly apprenticeship training system (WATS), mobile delivery, and blended learning.
- Although Alberta has only 12 per cent of Canada's labour force, it trains approximately 18 per cent of the country's apprentices.
- Alberta recognizes apprentices from other jurisdictions in Canada at the same level as their home jurisdiction, and facilitates that transition to ensure that the best interests of those apprentices are met.
- Alberta welcomes tradespeople from other jurisdictions and recognizes all Canadian trade certificates. Alberta also promotes the acquisition of the Interprovincial Standards Red Seal.
- Alberta has produced more tradespeople with an Interprovincial Standards Red Seal than any other jurisdiction in Canada.

Apprenticeship Statistics at a Glance - 2014

- As of December 31, 2014, there were more than 70,500 registered apprentices – the highest number ever in Alberta.
- In 2014, just under 24,000 new apprentices registered – an increase of more than 50% since 2010.
- As of December 31, 2014, approximately 3,600 Aboriginal people were registered in Alberta as apprentices.
- As of December 31, 2014, just over 6,300 women were registered in Alberta as apprentices.
- More than 1,400 high school students were registered in the Registered Apprenticeship Program (RAP) in 2014, and were employed at over 1,000 employer sites.
- More than 3,100 apprentices who started RAP in high school are currently continuing in a regular apprenticeship program.
- More than 4,100 individuals who began their apprenticeship through RAP have gone on to complete their program and become certified journeypersons. (See Table 10)
- In 2014, apprentices were being trained at more than 15,000 employer sites around Alberta.
- In 2014, more than 10,500 individuals were certified in Alberta's designated trades and occupations. (This includes completed apprentices and individuals issued occupation and qualification certificates).
- The majority of graduates who participated in the 2011/2012 apprenticeship graduate survey expressed satisfaction with:
 - the overall quality of on-the-job training (95%);
 - the overall quality of their technical training (96%); and
 - their experience with the apprenticeship program – 96% would still have chosen to become an apprentice.
- According to a 2012 survey of employers, overall satisfaction with Alberta's apprenticeship and trade certification system remains high with 92 per cent of respondents expressing satisfaction with the system.
- The majority of employers who participated in the 2012 employer survey expressed satisfaction with:
 - the skills of certified journeypersons (95%);
 - apprenticeship technical training (86%); and
 - the effectiveness of on-the-job training (96%).
- Innovation and Advanced Education staff completed more than 10,400 shop registrations through site visits in 2014. These site visits provide an opportunity to promote apprenticeship and industry training programs, and work with employers and apprentices to ensure the successful completion of apprenticeship training.

Part A: Total and New Apprentices Registered by Year

	2009	2010	2011	2012	2013	2014
Total Apprentices Registered (all trades)	69,904	63,029	57,004	61,326	65,880	70,733
New Apprentices Registered (all trades)	16,594	15,199	17,371	21,906	22,129	23,900

Source: Alberta Innovation and Advanced Education

Total Apprentices Registered:

Total number registered as of December 31, 2014. Apprentices may be registered in more than one trade or branch of a trade within the same year but are counted here only once.

New Apprentices Registered:

All apprentices registering during a single calendar year. The number includes those who are returning to do an additional apprenticeship after completing one or more apprenticeships in previous years, or continuing an apprenticeship in another trade for which they registered in a previous year. Apprentices who registered in more than one trade or branch of a trade within a specific year, or who changed from one branch of a trade to another branch within the same trade on the same day, are counted only once. The number does not include reinstated apprentices (unless reinstated in the same year).

¹ Total number of apprentices registered as of December 31 each year. Apprentices may be registered in more than one trade or branch of a trade within the same year but are counted here only once. Apprentices registered and employed in another jurisdiction but taking training only in Alberta are not included here.

• = Compulsory certification trade
■ = Red Seal trade

N/A = Not Applicable. Data does not exist in one or more of the specified years.

Note 1: In 2014, 24 of the 93 individuals registered in the refinisher branch of the auto body technician trade are also registered in the repairer branch of that trade.

Two of the 53 individuals registered in the repairer branch of the trade are also registered in the refinisher branch.

Note 2: Natural gas compression technician became a designated trade on September 1, 2011.

Note 3: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.

Note 4: Effective April 1, 2011, the designation of the trade of tool and die maker was rescinded. As of May 1, 2009, contracts of apprenticeship were no longer accepted for registration.

Source: Alberta Innovation and Advanced Education

¹ New apprentices include all apprentices registering during a single calendar year. The number includes those who are returning to do an additional apprenticeship after completing one or more apprenticeship programs in previous years, or continuing an apprenticeship in another trade for which they registered in a previous year. Apprentices who registered in more than one trade or branch of a trade within 2014, are counted here only once. The number does not include reinstated apprentices (unless reinstated in the same year).

N/A = Not Applicable. Data does not exist in one or more of the specified years.

Note 1: In 2014, 2 of the 30 individuals registered in the refinisher branch of the auto body technician trade are also registered in the prepper branch of that trade.

Note 2: Natural gas compression technician became a designated trade on September 1, 2011.

Note 3: Effective September 1, 2011, the old four-period marine and recreational branches of the outdoor power equipment technician trade changed to the new three-period recreational branch of the trade, and the old four-period turf and power branches changed to the new three-period power branch.

Note 4: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.

Note 5: Effective April 1, 2011, the designation of the trade of tool and die maker was rescinded. As of May 1, 2009, contracts of apprenticeship were no longer accepted for registration.

Chart 2

Total Number of Apprentices Registered by Year¹

Source: Alberta Innovation and Advanced Education

¹ This graph represents statistics covering a series of calendar years (January to December).

Chart 3

Age of Alberta Apprentices on Date of Registration in First Trade, 2014¹

Total number of Alberta apprentices registering in their first trade in 2014 - 20,037²

Source: Alberta Innovation and Advanced Education

¹ Age at date of registration.

² The 20,037 total in the chart above includes only individuals registering in their first trade in Alberta in 2014. This number differs from the total number of new apprentices registered (23,900) as presented in Table 3. In Table 3, the number of new apprentices registered includes those who are returning to do an additional apprenticeship after completing one or more apprenticeship programs in previous years.

Total Apprentices Being Trained by Employer Site Size¹

Source: Alberta Innovation and Advanced Education

¹ The size of an employer site is determined by the number of tradespeople.

¹ Individuals issued more than one certificate in 2014 are counted here only once.

N/A = Not Applicable.

Note 1: This number includes the number of 'Interprovincial Red Seals Issued to Completed Apprentices and Trainees' in 2014 regardless of the year the apprentices or trainees completed their training.

Note 2: A Qualification Certificate is a certificate issued to individuals who, through an assessment of their prior work experience, knowledge and skills in a designated trade, demonstrate they meet the standards set for certification in Alberta.

Note 3: 'Other Red Seals Issued' includes red seals issued to individuals other than those who have completed an Alberta apprenticeship or occupational training program. The number includes red seals issued to individuals who were certified through Alberta's Qualification Certificate Program or occupation training and certification program (without completing a trainee program) and to individuals who successfully completed the interprovincial examination in Alberta rather than in the jurisdiction in which they were originally certified.

¹ Individuals issued more than one certificate in each year are counted here only once.

N/A = Not Applicable. Data does not exist in one or more of the specified years.

Note 1: Natural gas compression technician became a designated trade on September 1, 2011.

Note 2: Effective September 1, 2011, the old four-period marine and recreational branches of the outdoor power equipment technician trade changed to the new three-period recreational branch of the trade, and the old four-period turf and power branches changed to the new three-period power branch.

Note 3: Effective July 1, 2013, the designation of the trade of sawfiler was rescinded.

Note 4: Effective April 1, 2011, the designation of the trade of tool and die maker was rescinded.

Note 5: Cathodic protection technician became a designated occupation on February 4, 2013.

Note 6: Residential construction site manager became a designated occupation on September 30, 2011.

Note 7: Slickline services became a designated occupation on September 30, 2013.

Note 8: The warehousing occupation merged with the parts technician trade on May 1, 2008. Individuals registered in the warehousing occupation on that date had the option to complete their existing warehousing training and become certified prior to May 1, 2010.

Chart 5

Apprentice Completion Rate by Year

Source: Alberta Innovation and Advanced Education

Notes

Year = July 1 to June 31

The cohort of apprentices that is followed are those who have completed all the requirements for their first period of apprenticeship training (including technical training, on-the-job training and period exams) and went on to complete their program within two years past the normally expected completion date.

The completion rate is based on trade programs that are 2, 3 and 4 years in length combined. One-year trades are excluded.

Table 6

Source: Alberta Innovation and Advanced Education

¹ These statistics cover the school year from August 1 to July 31 for each year represented, with the exception of the 2014/15 school year. The data for this year is the attendance as of the date of printing (May 2015).

Note 1: Delmar College, Eveline Charles Academy and Marvel College provide technical training for hairstylists. The hairstylist trade has a two-year apprenticeship program.

Note 2: Between August 1, 2009 and July 31, 2012, Eveline Charles Academy provided hairstylist training in the northern part of the province. As of August 1, 2012, Marvel College has been providing the hairstylist training for northern Alberta.

Note 3: 'Other' training providers may not provide apprenticeship technical training every year. Other training providers for 2014/15 include:

- ATCO Electric - is accredited to provide technical training for its powerline technician apprentices.
- Enform - (previously Petroleum Industry Training Service) provides training for the wellhead boom truck branch of the crane and hoisting equipment operator trade - a one-year apprenticeship program.
- FortisAlberta Inc. - (previously Aquila Networks Canada, Utilicorp Networks Canada and Trans Alta Utilities) is accredited to provide technical training for its powerline technician apprentices.

Source: Alberta Innovation and Advanced Education

¹ These statistics are as of December 31, 2014.

N/A = Not all trades have four periods as part of the apprenticeship program. The N/As indicate where there is no period in that trade.

N/A* = The number of periods of an apprenticeship program does not always equal the number of periods of technical training required. N/A* indicates where there is a period in the apprenticeship program but no technical training is required in that period.

Note 1: 'TT Completed' refers to those apprentices who have completed, or who have been granted credit for, all technical training (TT) requirements in their apprenticeship program. Industry examination and/or work experience/on-the-job training requirements for the trade have yet to be successfully completed.

¹ See map on page v for Apprenticeship and Industry Training office regions.

² This table represents statistics covering the January to December 2014 calendar year. Technical training in Table 6 is reported as school year. For this table only, the technical training statistics cover the calendar year for comparability within this table.

³ Attendance reflects the number of technical training seats occupied.

Note 1: Alberta provides training for apprentices from other Canadian provinces and territories where the trade is designated but the jurisdictions are unable to provide technical training due to small apprentice registration numbers. Alberta does not issue these individuals a certificate. They are not counted in any of the tables or charts reflecting the number of registered Alberta apprentices.

Note 2: Alberta registers apprentices and provides technical training to people from jurisdictions where no apprenticeship program exists. Alberta issues a certificate on completion of the program.

Note 3: Not all apprentices attend technical training in any given year. The reasons for not attending may include:

- Apprentices do not normally attend technical training until they have had at least eight to 10 months of on-the-job training with their employer.
- Some apprentices are graduates of accredited post-secondary technical programs or have completed an apprenticeship program in another trade and have received credit for their technical training.
- Some have successfully completed all of the technical training and have only the required on-the-job training to complete before being eligible to be certified.
- Some prefer to obtain the study material (ILMs – individual learning modules) and learn at their own pace, and then challenge the industry exam.
- Some are in the Registered Apprenticeship Program (RAP) and attending high school and are not able to attend technical training.

Source: Alberta Innovation and Advanced Education

¹ The number of meetings in this table includes sub-committee meetings for provincial apprenticeship committees and occupational committees. It does not include ballots for any of the committees.

Note 1: There is one provincial apprenticeship committee for each designated trade and one occupational committee for each designated occupation.

Note 2: The number of local apprenticeship committees (LACs) varies by trade. The number of LACs for each trade as of Dec 31, 2014 is indicated in the 'Number of LACs' column. Some trades do not have any LACs. The number of LAC meetings reflected in the table for each trade adds together the meetings of all the LACs in the province for that trade.

Shaded cells indicate that a committee did not exist in that trade or occupation for all or part of the year. Designated occupations do not have local committees.

Note 3: A number of meetings of the provincial apprenticeship committees (PACs) were held jointly with other PAC meetings. These joint meetings are counted in the meetings for each PAC, but are only counted once in the totals. The number of joint meetings varies each year. The number of joint meetings in each year are as follows: 2009 - 0; 2010 - 0; 2011 - 0; 2012 - 7; 2013 - 3; 2014 - 8.

Note 4: As of 2010, the Petroleum Competency Program Steering Committee has served as the industry committee for the following designated occupations: oil and gas transportation services, slickline services, snubbing services and well testing services supervisor. In 2009, the meetings of the oil and gas transportation services, snubbing services and well testing services supervisor were joint and are, therefore only counted once in the total for that year.

High School = RAP participants currently in high school.

Full Time = RAP participants who have completed high school and are now full time apprentices.

Certified = RAP participants who have completed their apprenticeship program and are now certified tradespeople.

Note 1: Total number of RAP participants certified since inception of program (1992).

Chart 6

Number of New Registrants in the Registered Apprenticeship Program (RAP) by Year¹

Source: Alberta Innovation and Advanced Education

¹ This graph represent statistics covering calendar years (January to December).

Chart 7

Total Number of Individuals Awarded Scholarships by Year

\$6.7 million dollars have been awarded to apprentices since the scholarship program began in 2001.

Source: Alberta Innovation and Advanced Education

- Note 1:** There are currently 21 Top Apprenticeship Scholarships of \$1,500 available each year. The first year the scholarships were awarded was 2008. Top Apprenticeship Scholarships are awarded to apprentices who achieved both a very high academic standing in their technical training and a strong employer recommendation.
- Note 2:** There are currently 11 Pre-Apprenticeship Scholarships of \$1,000 available each year. The first year the scholarships were awarded was 2008. Pre-Apprenticeship Scholarships are awarded to individuals who have completed pre-trades training and have since become a registered apprentice. Recipients are selected based on their marks and employer recommendations.
- Note 3:** There are a minimum of 357 Apprenticeship and Industry Training (AIT) Scholarships of \$1,000 available each year. The number varies each year based on the value of the endowment fund. The first year the scholarships were awarded was 2002. AIT Scholarships are awarded to registered apprentices who are continuing in, and working toward, completing their apprenticeship program. Recipients are selected based on their marks and employer recommendations.
- Note 4:** The Registered Apprenticeship Program/Career and Technology Studies Apprenticeship Pathways (RAP/CTS) Scholarships are \$1,000 each. For the years 2001 to 2004, there were 50 RAP/CTS scholarships available. Since 2005, 500 RAP/CTS Scholarships are available each year. RAP/CTS Scholarships are awarded to individuals who have participated in RAP or in CTS apprenticeship pathways in high school and have since become a registered apprentice. Recipients are selected based on employer recommendations, high school recommendations and marks.

For more information on scholarships, go to: tradesecrets.alberta.ca

Structural Steel and Plate Fitter	136	5	4
Tilesetter	20	0	4
Transport Refrigeration Technician	37	1	0
Water Well Driller	46	2	2
Welder (Total)	8,913	523	765
Welder	8,840	520	764
Wire Process Operator	73	3	1
TOTAL - TRADES	70,733	3,599	6,302

(Note 1)

Source: Alberta Innovation and Advanced Education

¹ Total number of apprentices registered as of December 31. Apprentices may be registered in more than one trade or branch of a trade within the same year, but are counted here only once.

Note 1: Apprentices choose whether or not to disclose their Aboriginal heritage when registering. The total number of Aboriginal apprentices reflected here indicates those who disclosed their Aboriginal heritage. There may be additional apprentices with Aboriginal heritage registered who did not disclose that information.

Chart 8

Total, Women and Aboriginal¹ Apprentices Registered by Year

Source: Alberta Innovation and Advanced Education

¹ Apprentices choose whether or not to disclose their Aboriginal heritage when registering. The total number of Aboriginal apprentices reflected here indicates those who disclosed their Aboriginal heritage. There may be additional apprentices with Aboriginal heritage registered who did not disclose that information.

Note 1: In 2007 and 2008, the statistical methodology for the Aboriginal apprentice number changed, therefore, the numbers in those two years cannot be compared to those of previous or future years.

Chart 9

Per Cent Change of Aboriginal Apprentices Registered¹ by Trade Between 2009 and 2014

Source: Alberta Innovation and Advanced Education

¹ Apprentices choose whether or not to disclose their Aboriginal heritage when registering. The total number of Aboriginal apprentices reflected here indicates those who disclosed their Aboriginal heritage. There may be additional apprentices with Aboriginal heritage registered who did not disclose that information.

Notes:
The 25 of 49 trades represented in the chart are those in which there were the highest number of Aboriginal apprentices registered as of December 31, 2014. The list of trades is rank ordered with the highest to lowest number of Aboriginal apprentices registered.

Due to small registration numbers in some trades, large percentage changes may occur.

Chart 10

Total Number of Women Apprentices Registered by Year¹

Source: Alberta Innovation and Advanced Education

¹ This graph represents statistics covering a series of calendar years (January to December).

Traditional Trades = These are trades in which women have traditionally made up a large proportion of the total apprentices registered. These trades are: baker, cook, hairstylist, and landscape gardener.

Non-Traditional Trades = All trades other than the four 'Traditional Trades'.

Chart 11

Per Cent Change of Women Apprentices Registered by Trade Between 2009 and 2014

Source: Alberta Innovation and Advanced Education

Notes:

The 25 of 49 trades represented in the chart are those in which there were the highest number of women apprentices registered as of December 31, 2014. The list of trades is rank ordered with the highest to lowest number of women apprentices registered.

Due to small registration numbers in some trades, large percentage changes may occur.

Chart 12

Apprentice Graduate Satisfaction with Apprenticeship System

Source: Alberta Innovation and Advanced Education, surveys of graduates

Survey Question #F6: In retrospect, based on your experience with the Alberta apprenticeship program, would you still have chosen to become an apprentice?

¹ Indicates a significant change in response at a .05 level of confidence compared to the previous survey year.

² Indicates a significant change in response at a .05 level of confidence compared to two surveys previous.

³ Indicates a significant change in response at a .05 level of confidence compared to three surveys previous.

Chart 13

Employer Satisfaction with Apprenticeship System

Source: Alberta Innovation and Advanced Education, surveys of employer satisfaction with apprenticeship training and skilled tradespeople

Survey Question #45: Overall, how satisfied are you with the apprenticeship and trade certification system in Alberta?

¹ Indicates a significant change in response at a .05 level of confidence

² Indicates a significant change in response at a .05 level of confidence

³ Indicates a significant change in response at a .05 level of confidence
